"Your child needs no medicine and cannot be helped by drugs. But if you have the means and time and can go to America there is a wonderful spring in that land, the water of which will. I am sure, restore your child to health. All the leaning physicians of Europe know of this wonderful spring are aware of its remarkable qualties, and know that for all diseases of the kidneys, high-der and urinary organs, or for deicate women and feetle children nothing can be compared with it. Indeed, it is really the only water known to science which, while possessing almost marvellous remedial powers, is palatable, clear as crystal and can be freely drank."
